Bulkhead and Marina Project:

During the week of October 17th, members of the Severn House Bulkhead work group along with members from the contracting team will be inspecting the total project area for the purpose of developing a "Punch List" of items to be "repaired / replaced" prior to completion of the construction effort.

All residents / slip owners are encouraged to point out items that might require "repairing / replacement". The type items we would anticipate requiring attention likely will be things such as "warped / split deck boards, ill fitting boards, leaking water pipes, a faulty electric box at the slip, water or electric connections", etc, etc. If you are familiar with such a situation, please provide Victory Management with the type problem, the location, your name and contact info.

We currently anticipate project completion by 31 Oct 2011.

From all of us on the Bulkhead working group and the SH BOD, thank you for your patience!
